

mk LibDispenser™

The Ultimate Accessible Library!

Benefits for your Patron:

- Convenient library extension in public high access areas such as train stations, airports, hospitals, malls, universities, etc.
- Uses familiar Online Catalog (OPAC) from your ILS.
- Handles all types of library materials (books, CDs, DVDs, magazines, games).
- Identification via barcode, RFID, magnetic stripe, smart card or biometric patron card.
- Simple and intuitive touch screen user-interface.
- Fine and Fee Payment via debit/credit card, smart card, or cash.
- The patron takes only the item, just like a normal library – No extra boxes or cases that need to be returned to the same location.
- Accepts any library return item the same as other branches.

Benefits for your library:

- Provide library services to areas where a new branch is reducing hours or adds additional capacity for space strapped branch.
- Affordable service alternative in neighborhoods that can't support a physical building.
- Base model maximum capacity of 876 items with items being less than 1" thick with the ability to add two expansion modules that can hold up to 390 items each
- Smaller capacity options available
- Web-based monitoring and administrative software (mk LibManager)

Available Options:

- Free-standing indoor or outdoor version
- Indoor version with outdoor (through wall) front-end (check-in/check-out station)
- Selector(s) (library's OPAC/web catalog station) located beside the front-end
- Selector(s) (library's OPAC/web catalog station) integrated in front-end
