

mk Security gates

Security for RFID, EM and Hybrid

Benefits for your patron:

- Width between gates provides maximum space for wheelchairs and strollers.
- No extra handling required by self check. EAS or AFI switched automatically when material is checked in or out.
- No false alarm on articles from other libraries or stores.

Benefits for your library:

- Security functions via EAS Bit (Electronic Article Surveillance) or via the ISO 15693/18000 AFI sector (Application Field Identifier).
- Security function via EAS or AFI: activation of light and auditory alarms as soon as the security gates detect materials which are not signed out by ILS. Antennas are available in several designs.
- Depending upon your identification technology, antennas are available for RFID, EM or Hybrid (RFID + EM)
- Integrated red alarm light and audible signal

Technical Details:

- Dimensions Standard RFID Plexi antenna:
L 1.2 x W 17.8 x H 68.9 in.
(L 30 x W 450 x H 1750 mm)
- Weight: approx. 66 lb
- Power Supply 230V 1P

- Maximum width between gates is 39.4 in (1000 mm)
- CE / UL certified
- LibManager will be your standard supervisor software

Optional:

- Gatetracker with two modules:
 - Integrated people counter
 - Item identification
