

mk Staff Station

Your staff station with state of the art technology

Benefits for your Library:

- Upgrade existing work-stations to RFID
- Use your existing circulation desk hardware and ILS software
- Full integration into your library's ILS system. No new software!
- Mini-application sends RFID patron and book information directly to ILS circulation window and changes/displays item security status
- Allows for single or multiple stack processing
- Single processing of transponders possible, if stack processing is not desired
- Compatible with RFID patron cards
- Reads multiple data formats

Technical Details:

- RFID Reader/Writer and antenna meets ISO 18000-3 /15693 standards
- Mini-application-LibSoft Staff
- No additional SIP connection (License) required!
- LibManager will be your standard supervisor software

Optional:

- Able to function as barcode and RFID system
